👤 PROFESSIONAL SUMMARY

BSc (Hons) Computer Science undergraduate at SLIIT with a strong interest in Full-Stack Development, Software Engineering, and AI-powered applications. Experienced in building scalable web applications using React, .NET, Spring Boot, REST APIs, and relational/non-relational databases.

Skilled in frontend and backend development, API integration, database management, and Git-based collaborative workflows. Passionate about developing user-centric solutions, learning new technologies, and contributing to innovative software products in fast-paced environments.

🎓 EDUCATION

BSc (Hons) Computer Science *Undergraduate*
Sri Lanka Institute of Information Technology (SLIIT) 2023 Nov – Present

Key Modules: Data Structures & Algorithms, Operating Systems, Database Management Systems, Object-Oriented Programming, Distributed Systems, Statistics, Computer Networks, Programming Paradigms, Engineering Mathematics, Human Computer Interactions.

G.C.E. Advanced Level (Physical Science Stream): 1 B Pass, 1 C Pass, 1 S Pass **2022**
Holy Cross College, Gampaha

G.C.E. Ordinary Level: 4 A Passes, 3 B Passes, 2 C Passes **2019**
Holy Cross College, Gampaha

🔧 TECHNICAL PROJECTS

VibeWrite (AI-Powered Learning Platform) — *Gemini API, React, Node.js, Tailwind CSS* Jan 2026
[Contribution: AI Integration, Full Stack Development]

- Full-Stack AI Orchestration: Architected an end-to-end educational platform using the Gemini 1.5 Flash API and Node.js to transform user prompts into structured, curriculum-aligned study modules with a high-performance React frontend.

InsightERP (Enterprise Resource Planning System) — *.NET 9, React, Vite, Azure, Docker* 2026
[Contribution: Full Stack Development, DevOps, Cloud Architecture]

- Cloud Architecture: Architected a cloud-native ERP platform using a .NET 9 microservices backend behind an Ocelot API Gateway, integrated with a dual-portal React frontend.
- Distributed Security: Implemented secure JWT-based authentication with role-based access control (Admin, Manager, Customer) across isolated microservice boundaries.
- DevOps Pipeline: Built a GitHub Actions CI/CD pipeline automating T-SQL migrations, Docker builds, and zero-downtime deployments to Azure Container Apps.
- AI Analytics: Integrated specialized predictive microservices for live business intelligence and demand forecasting deployed on Azure.

Serango (AdaptIQ Hackathon Finalist) — *Java Spring Boot, MongoDB(Vibe code)* Oct 2025
[Contribution: Full Stack Development]

- Selected as a Top 10 Finalist (out of 40+ teams) in a 22-hour onsite coding challenge to solve tourism industry problems. Rapidly prototyped a functional MVP that successfully adapted to 8 dynamic constraints introduced during the competition.

TestLang Compiler (Custom DSL for Automation) — *C++, Lex, Yacc, Compiler Design* Dec 2025
[Contribution: Language Design, Compiler Engineering]

- Compiler Development: Engineered a custom Domain Specific Language (DSL) from scratch using C++ and Lex/Yacc to streamline automated test script generation and execution.
- Syntax Semantic Analysis: Architected the complete compiler pipeline, including lexical analysis, parsing, and an Abstract Syntax Tree (AST) to transform high-level test logic into executable machine-ready instructions.

🏆 ACHIEVEMENTS

- **AdaptIQ Hackathon (IIT)** — *Top 10 Finalist* 2025
Selected to compete in the final 22-hour physical development challenge organized by WIEEE. (Team: Team Nybble).

- **Innovate with Ballerina 2025** — *Winner (Social Media Contest)* 2025
Organized by IEEE University of Moratuwa & WSO2. (Team: Ballerina Cappuccina).
- **Code Quest v1.0** — **IEEE Sabaragamuwa University** — *Finalist (Top 10)* 2025
– Successfully advanced to the final round as one of the Top 10 teams by demonstrating strong problem-solving and algorithmic thinking (Team: ObscurusSquad)

🌟 CERTIFICATIONS

- **Certificate in Prompt Engineering** — *DeepLearning.AI* 2026
- **Certificate in AI/ML Engineer - 1** — *SLIIT* 2025
- **Certificate in AI/ML Engineer - 2** — *SLIIT* 2026

🤝 VOLUNTEERING & LEADERSHIP

- **SLIIT Final Exams Support Series** — *Peer Tutor* 2025
– Volunteered to conduct academic revision sessions to assist peers in preparing for final examinations.
